Vehicle Certification Agency Job Number : JSF 005874

Applicant: VERTEX STANDARD CO., LTD.

General description of product: FM Transceiver (FT-1802E)

Information submitted by the applicant: VERTEX STANDARD CO., LTD.

This ESA can be used on any vehicle-type with the following restrictions:

- It is not used for a vehicle operated by 24V.
- It is only used for a vehicle.

Installation conditions, if any:

Do not install the transceiver on top of another heat-generating device (such as a power supply or amplifier), and do not place equipment, books, or papers on top of the FT-1802E. Avoid heating vents and window locations that could expose the transceiver to excessive direct sunlight, especially in hot climates. The FT-1802E should not be used in an environment where the ambient temperature exceeds +60 degrees.

We confirm that the product described above is not immunity-related according to Directive 72/245/EEC as last amended by Directive 2004/104/EC. Any testing according to immunity as defined in this Directive is not required.
